CLEANING INSTRUCTIONS AIRPOTS & THERMAL SERVERS

Please follow these important cleaning instructions for Bloomfield Airpots and Thermal Servers.

CLEANING THE POT:

1. Rinse the pot with clean hot water and empty
2. Fill the pot full using a food safe coffee pot cleaner and let sit for 10 to 15 minutes
3. After the recommended time has elapsed, use a cleaning brush to thoroughly clean the inside of pot.
4. Empty the contents of the pot, fill with clean water, rinse & repeat until water is clear
5. Wipe the exterior with a clean damp cloth

CLEANING OF PARTS:

The Brew-Thru lid is easily removable for cleaning and sanitizing. Use the three sink cleaning and sanitizing method to clean and sanitize the lid. The first sink filled with a warm water and detergent solution, the second filled with warm clean water, and third filled with cool water and a sanitizer solution.

1. Soak & wash the lid in a mild detergent filled sink
2. Repeatedly rinse the lid in a sink filled with clean water
3. Allow to air-dry completely

SANITIZING THE UNIT:

1. Fill the pot completely with a mild sanitizer solution and let sit for 5 minutes
2. Empty the sanitizer solution completely; make sure that no sanitizer solution remains in pot
3. Allow pot to air dry completely
4. Sanitize the lid by soaking in a sink filled with sanitizer solution for 5 minutes
5. Allow to air dry

KEEPING COFFEE HOT

Fill the pot with hot water. Allow to set for at least 10 minutes, then empty just prior to brewing into it.

If you have any further questions or comments regarding these cleaning instructions, please call:

Bloomfield Industries

**CAUTION:
FIRE HAZARD
EQUIPMENT DAMAGE**

DO NOT PUT AIRPOT OR THERMAL SERVER ON A WARMER PLATE OR ANY OTHER HOT SURFACE.

IMPORTANT:

DO NOT USE BLEACH, CHLORINE, OR OTHER HARSH CHEMICALS.

This may cause damage to the metal, and can cause deterioration of the insulation.

Recommendation:

Large companies such as Urnex, Ecolab, etc... offer a number of popular, low-cost, mild cleaning solutions that are safe for use on stainless steel.

IMPORTANT:

- DO NOT IMMERSE AIRPOTS OR THERMAL SERVERS IN WATER.
- DO NOT PUT AIRPOTS, THERMAL SERVERS OR LIDS IN DISHWASHER.

NOTE:

Airpots and thermal servers are designed for use with coffee, tea and water only. Use of any other substance in these containers is neither recommended nor authorized by the manufacturer.
